INTAMIN AMUSEMENT RIDES Int. Corp. Est., Landstrasse 126, P.O. Box 644, FL-9494 Schaan, Principality of Liechtenstein
Phone: +423 237 03 43, Fax: +423 237 03 40, e-mail: information@intaminworldwide.com, www.intaminworldwide.com

Quite simply, the Mega Splash represents the most exciting water ride ever built, made possible by the use of Intamin's patented magnetic braking technology and vehicle development. This ride is a highly attractive family thrill ride for all passengers riding it. It is, however, also very spectacular for all visitors just watching the large size boats accelerating down the ramp, hitting the water at high speed and creating a gigantic splash. The lift inclination as well as the down ramp angle have been increased to allow installation within a small foot print area. The boats plunge down on a 75-degree steep down chute reaching a maximum speed of 80 km/h. The force of the splash will be enhanced by the placement of an observation platform or bridge.

Technical Data

Mega Splash

Length of track	up to 260 m (longer upon request)
Max. speed	up to 80 km/h (faster upon request)
Capacity per boat	24
Hourly capacity	up to 1250 pph
Total height	up to 37 m (higher upon request)
